

pH SPEAR

Great for solids & semi-solids

pH is the key parameter in food production and the waterproof pH Spear is designed with a sharp tip pH electrode for the measurement of solid or semi-solid samples such as cheese, meats, fruits, bread or other similar samples.

- Large Display Screen - dual display LCD for enhanced readability, provides comprehensive meter information
- Waterproof, Dustproof Housing - IP67 rated, maintains the integrity of your tester even in harsh conditions. Plus it floats!
- User Replaceable Sensor - reuse the same meter body many times

The Waterproof pH Spear is designed for semi-solid food applications. Tough spear tip glass and open pore sensor ensures stable and accurate reading of ± 0.01 pH.

Waterproof pH Spear • Code 5-0130 •

Range	-1.00 to 15.00 pH
Resolution	0.01
Accuracy	± 0.01
Calibration	Up to 3 points, selectable buffers USA - pH 4.01, 7.00, 10.01; NIST - pH 4.01, 6.86, 9.18
ATC	None
Electrode	Replaceable spear tip
Temperature	None
Waterproof/ Dustproof (IP67)	Yes
Operating Temperature	0 to 50°C
Power	Four 1.5V batteries
Battery Life	Over 500 hours
Dimensions	6.5" x 1.5" dia (15.5 x 3.8 cm dia)
Shipping Weight	4.5 oz (125 g)

Code
5-0130
